OBJECTIVE

Currently pursuing a Bachelor of Engineering in Computer Science and Engineering at Chennai Institute of Technology. Passionate about technology, data, and AI, with active focus on building skills in probability, statistics, and computer science fundamentals. Curious, driven learner eager to grow in academic and practical settings.

EXPERIENCE

Chennai Institute of Technology – Business Incubation Forum (CITBIF)

Duration: 8 weeks MAY-JUNE (2025)

ROLE: Backend Developer Intern – CITBIF

Developed a web-based platform for managing and tracking college-level competitions and events. Implemented backend logic using Express.js and MongoDB to track user views and confirmations, with scalable APIs enabling seamless real-time frontend integration.

PROJECTS

Competition and Event Management Tool

Developed a web-based platform for managing and tracking college-level competitions and events. Implemented backend logic using Express.js and MongoDB to track user views and confirmations, with scalable APIs enabling seamless real-time frontend integration.

Industrial IoT Predictive Maintenance

Developed a smart predictive maintenance system using ESP32-based IoT sensors for real-time monitoring of temperature, vibration, and current data; built a cloud-based anomaly detection dashboard and integrated federated learning with blockchain for secure, decentralized model updates.

Tech Stack: ESP32, Arduino IDE, Python, Flask/Streamlit, Federated Learning (FedAvg), Blockchain (Python ledger), ACS712, MQTT/HTTP, DHT11, MPU6050.

CyberShield

Designed and developed a decentralized cybercrime reporting platform enabling anonymous and DID-based complaint filing with AI-assisted structured reporting. Implemented blockchain-based proof-of-complaint (hash + timestamp) and secure off-chain evidence storage to ensure transparency, immutability, and auditability for law enforcement systems.

Tech Stack: React, Express, MongoDB, Polygon, W3C DID, IPFS/Firebase

EDUCATION

B.Tech Computer Science and Engineering, Chennai Institute of Technology

Cumulative Grade Point Average (CGPA) - 8.45

Sep 2024 – Apr 2028

Chennai, India

SKILLS

Technical Skills:

- **Programming Languages:** C, C++, Java, Python, JavaScript
 - **Frameworks & Libraries:** Express.js, React, Flask, Streamlit
 - **Databases:** MongoDB, MySQL
 - **Tools & Platforms:** Git, GitHub, Docker, Arduino IDE
 - **Other CS Fundamentals:** DBMS, Operating Systems, Computer Networks, OOP
- ### Soft Skills:
- Teamwork, Leadership, Adaptability, Empathy, Multitasking
 - Integrity, Resilience, Flexibility, Creativity & Innovation

ACHIEVEMENTS

- Secured the 2nd place in the Hackwise National Hackathon conducted by IEEE TEMS IIM Indore, January 2026.
- **Leetcode :** Hariharancv Globally, Solved 500+ sums, Contest Rating-1678.

CERTIFICATIONS

- MongoDB and AI Fundamentals – MongoDB
- Describe the concepts of Cybersecurity – Microsoft
- MongoDB basics for students – MongoDB
